

(ORIGINAL '72) 'I LOVE YOU BABE'

There must be a way I can make you say
 You won't turn your back on me
 Cos you said one night ^{that} you'd love to stay
 Right here in the sack with me
 * I feel its my birthday when I come home
 * You put my fear away
 I gave you my soul a while ago
 * You know I love you babe

* hold my hand when it shakes too much
 To calm my worry down
 * keep me from those angry words
 That make me out a clown
 * it feels so good when you know my mind
 * I don't have to say a thing
 * I gave you my soul a while ago
 * you know I love you babe

without
 you in
 my mind

I know I'd be a hobo man
 without your hand in mine
 Just wanderin' down some lonesome road
 without a face to find
 But those bad dreams they won't come near
 while they know that I love you babe
 You know those bad dreams they won't come
 near

I give the
 one that
 I hold dear

while they know
 that I love you babe
 yes while they know
 while they know
 I love you babe
 I love you
